OBJECTIVES

To become a part of a progressive organization that will provide ample opportunity for me to learn and grow on a professional and personal level.

PERSONAL PROJECT

- Title: Gym Management System
- Environment: Java, MySQL, Spring Boot
- Description: Gym Management System helps to keep records of members and their memberships and allows easy communication between you and your members.

- This is Gym Management System software developed in Java. Here the members of the gym, their personal information should be entered in the software.
 - The Gym Management requires a system that will handle all the necessary and minute details easily and proper database security accordingly to the user.
 - Gym management system project is a standalone user friendly software application developed in Java programming language and MySQL database.
-
